

We asked Dale to bring the baby Coop inside to keep it safe and out of the sun. When Soarin' Hawk volunteer Pam arrived, she checked the baby for any obvious injuries, while Ken from **Top Notch Tree Service** prepared to climb the tree to re-nest the baby.

When all was ready, the nestling was secured in a box and hoisted up the tree, and the climbing began!

While mom (or dad) watched, Ken reached into the box, removed the baby, and returned him to his nest.

Success! Together again!
