Dear SOARin' hawk

I love that you are trying to save the birds.
I love animals and I am trying
to support them. I have got a
couple questions but I won't ask
those to later in the letter.
I'm nine years old. I am home schooled
so I have plenty of time to read about
animals. Now the questions, how many
bird types are there? If you look at the
bottom of a falcon or a hawk how can you
tell which one it is?
