**Life after COVID-19.
The world has changed.
Our lives have changed.**

Where do we go from here?

**What do our individual and collective
post-COVID-19 seasons hold for us?**

**What learnings do we carry forward
from this time?**

The COVID-19 pandemic of 2020 has spared no one. It is an “intervention” unlike any other of our generation—and everyone is affected by it in one way or another.

The authors of *Living Into Your Next Season: Moving Forward After the Crisis of 2020* specialize in helping people make significant transitions in life and careers.

They have come together, in the middle of the crisis, to share stories, highlight heroes, put words to our collective experiences, and provide some wisdom as we all transition into a new normal—one that has the potential to be better than the one we knew before COVID-19.
