## WHO IS THE WORKSHOP FOR?

*This workshop is for white people who want to challenge the racism around them – and in their own heads and hearts – and who are searching for a way to strengthen their work for racial justice. It's for white folks who already do anti-racism work but want to develop their skills and deepen their approach. And it's for white folks who want a better understanding of how white privilege and racism operate in society and inside of them.*

*In a nonjudgemental, supportive setting, participants will build confidence in their ability to address racism through action; increase their understanding of how racism functions and what their role in it is; explore their internal racism and barriers to working on it; develop a personal vision for racial justice; build their skills in being accountable allies to people of color and working in coalitions; develop strategies for interrupting racist situations; increase their ability to support other white people doing racial justice work; and build an action plan of concrete next steps.*
