

PRESCHOOL/CHILD CARE

Goshen Friends School

In early December, students, siblings, alumni, parents, grandparents and faculty from Goshen Friends School, an independent Quaker preschool and pre-kindergarten in West Chester, gathered for their December Service Project to benefit Devereux's Kanner Learning Center. Children created glittery ornaments to decorate a tree that was donated to the residents of Devereux to bring cheer for the holidays. The school also spread the warmth of the season by presenting Devereux residents with hats, gloves, mittens and art supplies that members of the community gifted during a month-long donation drive. 'We sincerely appreciate the generosity of our families and thank everyone who joined us to help make the season warm and cheery for the young men and women of Devereux,' said Goshen Friends Head of School Mimi Ackers. 'Through gathering for service projects throughout the school year, we teach our students about the Quaker values that are at the heart of Goshen Friends, including community and the importance of giving to others.' Goshen Friends' service program benefits multiple nonprofit organizations throughout the year, including the Goshen Fire Co., Chester County Food Bank, Brandywine SPCA, Home of the Sparrow, Bellingham Retirement Community and Safe Harbor of Chester County.
