

SAY GOODBYE TO FOOD WASTE AT ADAT SHALOM

Now at ONEG we are scraping our plates and napkins into a special bin for food scraps!

These food scraps and used napkins are picked up, once a week, by a business called Compost Crew. They take our scraps, napkins, and used paper towels to a composting facility where they are mixed with carbons (leaves) and turned into compost. By doing this, and by being mindful of how we fill our plates at Oneg, (waste not, want not), we can minimize our food waste and return nutrients to the soil!

PS Not to worry – we will continue to save enough peelings, etc. for our beloved Mishnah Garden!

For more information about food composting, go to
