

Science Speaker Series

As noted above, Dr. Dick Elsley recently stepped down as the organizer and force-of-nature behind the Science Speaker Series, but the show and series must and will go on! As we look for new volunteer leadership, we are expanding our collaboration with California Lutheran University. In addition to continuing to provide free space for the lecture series, CLU plans to increase its marketing of the Speaker Series, recruit some of its faculty to become involved, and even partner with us to offer activities to programs such as DC Teens. We are very excited about this new chapter and will be sharing more details with you as we move forward. None of this, of course, would be possible without the dedication and efforts of the team of volunteers that have made the Speaker Series happen for the past 11 years. We thank them for everything they've done and look forward to working together on the future of this remarkable endeavor.
