

# YOU CAN WORK TO END HOMELESSNESS TODAY

We don't say this lightly - together we can work together to end homelessness. Homelessness is a human-made problem, which requires human-made solutions. You need to get involved to end our homelessness crisis.

## CHANGE THE CONVERSATION

Talk about the solutions to homelessness. It has taken us a long time to realize that the solution to homelessness is homes. Talk to your friends and family about the myths of homelessness and respect and humanize those who do not have housing.

Get involved in local advocacy and policy work. Democracy works when we make it work for us. Support politicians who want to solve homelessness and get involved in policies that work to address the root causes of homelessness. Donations and volunteerism are important ways we can address the temporary needs we have today; but advocacy is what will solve our homelessness crisis indefinitely.
