Quarterly Update – 2020 Q1

TEBS Overview

Cherry Tree has been tracking trends and activity in the Technology Enabled Business Services (TEBS) space for more than 15 years, including the TEBS 100 index

TEBS companies are defined as those that:

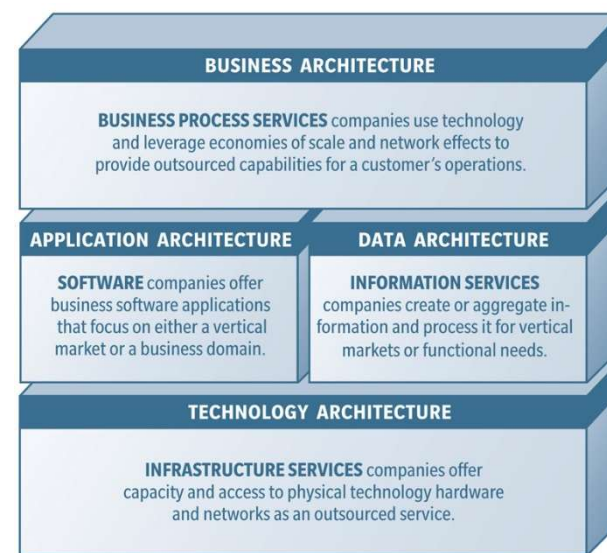

- Offer a solution, product or service that is delivered or enhanced via technology
- Generate revenue primarily from other businesses (“B2B”)

- Business Process Services
- Software
- Information Services
- Infrastructure Services

TEBS companies are consistently valued at a premium to the overall market due to fundamental business advantages

- Recurring Revenue
- Operating Leverage

An Index of 100 Publicly-Traded Technology Enabled Business Services Companies

TEBS 100 Index Performance

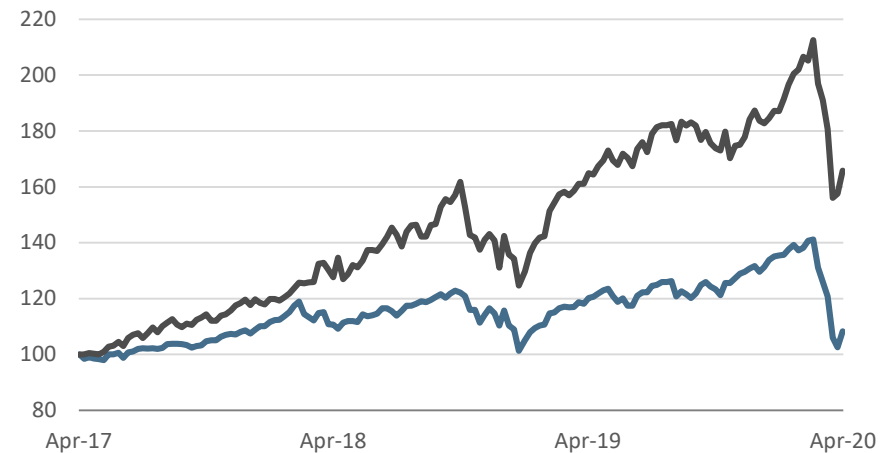

- The TEBS 100 index continues to outperform the overall market over a three-year period (66% return vs. 8% return for the S&P 500)
- Over the last twelve months the TEBS 100 had a 1% return, which outperformed the S&P 500 (-10% return)

3-Year TEBS 100 Performance vs. S&P 500

3-Month TEBS 100 Performance vs. S&P 500

TEBS 100 Segment Operating Metrics

- The annual revenue growth of the TEBS 100 index and all four of its segments continue to outperform the S&P 500
- Gross margins for the TEBS 100 are much higher than the median S&P 500 company, allowing for greater operating leverage and potential for higher overall profitability
- However, EBITDA margins continue to lag in comparison to the S&P 500, which is likely due to reinvestment of profits to drive revenue growth
