CASCADE CORRIDOR: 1ST MAYOR'S COMMUNITY WALK

On Thursday June 7, 2018 Mayor Edwards and a host of City of South Fulton Department representatives walked the Cascade Corridor. The purpose of the walk is to introduce the community to administrative leaders and identify key issues and concerns.

At the end of the walk, participants listened to a roll call that listed issues or needs identified during the event. The City published an initial report after the walk, that summarized the problems, their status and which departments are responsible for resolution. This document serves as a 30-day check-in report and provides an update on the issues listed in the initial report. The team will also produce a 60 and 90-day check-in report and will update the community at each checkpoint period or until all issues have been resolved.
