- Notes:
1. The MHACO quality results are based on data pulled on the last day of the preceding month, and sourced from MaineHeath Epic database for PenBay, Lincoln, SMHC, Waldo, Western, and MMC/MMP practices.
 2. Mid Coast contributes self reported data.
 3. St. Mary's implemented EPIC in May 2018 and anticipates updating results after Go-Live completion. Data on the Heat Map reflects May 2018 performance.
 4. Memorial implemented EPIC in December 2018 and anticipates updating results after Go-Live completion. Data on the Heat Map reflects the end of 2018 performance.
 5. Franklin will start EPIC implementation in the spring and anticipates updating results after Go-Live completion. Data on the Heat Map reflects the end of 2018 performance.

Notes:
 *Total MHACO member count, and regional count, includes risk-contract members in both employed and private practices. ** % HCC Open is based on Medicare Advantage + MSSP populations.
