

NoLUBE® CABLE. GUARANTEED...*Only from Southwire.*

SIMpull THHN® and SIMpull XHHW-2™ Cables

Southwire's SIM Technology® cable products are speeding up installation time, creating a safer work environment and changing the process of how intermediate and feeder size cables are pulled into conduit. Southwire's NoLUBE® SIMpull THHN® and SIMpull XHHW-2™ cables don't require the use of pulling lubricant when pulled into conduit. Southwire guarantees that SIMpull THHN® and SIMpull XHHW-2™ cable will pull into conduit the same way that lubed THHN or XHHW will.

- **NoLUBE® SIMpull® CABLES REDUCE THE RISK OF INJURY TO FINGERS WHILE APPLYING LUBE TO A MOVING CABLE AND FURTHER REDUCE THE RISK OF INJURY FROM SLIPPING ON SPILLED LUBRICANT.**
- **SIMpull THHN® CABLE IS AVAILABLE IN STANDARD COLORS, BOTH COPPER AND ALUMINUM CONDUCTORS, IN SIZES #8 – 1000 KCMIL COPPER AND #6 - 1000 KCMIL ALUMINUM.**
- **SIMpull THHN® WITH ALUMAFLEX® CONDUCTORS ARE MADE WITH AAA-8000 SERIES ALUMINUM ALLOY AND ARE ½ THE WEIGHT OF COPPER.**
- **SIMpull XHHW-2™ CABLE IS AVAILABLE IN BLACK AND COLORS, WITH COPPER CONDUCTORS. ALUMINUM COLORS ARE SUBJECT TO MINIMUM RUNS.**
- **BOTH SIMpull THHN® AND SIMpull XHHW-2™ CABLES HAVE SEQUENTIAL FOOTAGE MARKERS.**
- **SIM TECHNOLOGY® GIVES YOU THE ABILITY TO PULL SHORT LENGTHS BY HAND OR STOP IN THE MIDDLE OF A PULL TO BREAK FOR LUNCH OR OTHER JOB SITE SITUATIONS.**
- **REDUCES HORSE-COLLARING FOR REDUCED RISK OF NYLON TEARS ON SIMpull THHN® CABLE.**
- **RATED SUNLIGHT RESISTANT IN SIZES 1/0 AND LARGER ON SIMpull THHN®, #8 AND LARGER ON SIMpull XHHW-2™.**
- **INSTALLATION PERFORMANCE IS GUARANTEED WITH THE INDUSTRY'S ONLY PRODUCT PERFORMANCE GUARANTEE. TO VIEW THE DETAILS OF SOUTHWIRE'S PRODUCT PERFORMANCE GUARANTEE GO TO WWW.SOUTHWIRE.COM/GUARANTEE.**
