

Magnitude Otter™

Landscape Transformer Series | 150W/300W

Compact and waterproof, the Magnitude Otter™ hides easily and is engineered with features that reduce time, labor and profit-draining callbacks.

12V / 13V / 14V / 15V TAPS

IP65

01 Tough Construction

- ◆ Magnitude quality—designed for the contractor
- ◆ Stainless-steel housing with seams that are both welded and riveted for long product life
- ◆ Dual stainless-steel latches and automotive-grade gasket provide a tight and uniform seal
- ◆ IP65 enclosure for protection from dust, driving rain, sprinklers and insects

02 Easy Installation

- ◆ Designed for the installer with tilted connection rail, removable door, quick-release bottom plate—no more hand cramping and awkward angles
- ◆ Large, removable, rubber knockouts save time, eliminate rework and enable tight conduit connections
- ◆ Small size that's easy to locate in any installation

03 Customer-pleasing, Callback-preventing Features

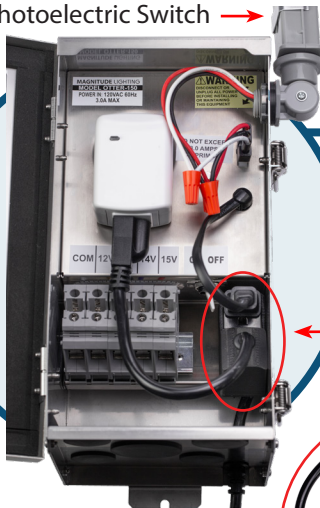

- ◆ Longer timer life due to dust-proof and watertight enclosure
- ◆ Accommodates a wide variety of plug-in timers including wireless models for smartphone or home assistant control
- ◆ Optional integrated 1.5KVA surge protector guards against lightning strikes and utility line surges
- ◆ Optional photoelectric switch for dusk-to-dawn operation
