

# FREE 3RD-12TH CLUBS

[FREE 3RD-12TH GRADE CLUBS] — □ ×

Clubs are **free computer science programs** that inspire passion, build community, and prepare young people for the future.

## LAUNCH

with educational, financial, and community-building resources.

## LEAD

with tools like tutorials, guides, templates, and live help.

## GROW

with funding, swag, recruitment kits, and events.

GET STARTED AND EXPLORE AT [GIRLSWHOCODE.COM/CLUBSAPPLY](https://girldwhocode.com/clubapply)

### ACTIVATE 3RD-5TH LEARNING

- Spark computer science interest with foundational learning, community, and confidence building.
- Learn through a book club-style model with Girls Who Code's *NY Times* bestselling book series.
- Reinforce concepts with online activities in Scratch and unplugged activities for offline work.
- Build confidence with Sisterhood Activities and a culture of bravery.

### UNLOCK 6TH-12TH OPPORTUNITIES

- Inspire persistence in tech fields with projects focused on real-world impact and community.
- Empower members to build learning pathways with self-guided video tutorials in the coding languages Scratch, JavaScript, Python, and Swift.
- Explore popular topics like web development, cybersecurity, game design, and AI.
- Enjoy the convenience of a browser-based platform.

### ACT NOW TO ACCESS:

- The Girls Who Code Clubs Fund to purchase snacks and supplies through an Amazon Wish List.
- Girls Who Code t-shirts, notebooks, and stickers to increase engagement.
- Guided activities and content that do not require certifications or technical backgrounds to lead.
- Sisterhood Activities, GWC Tech Spotlights, projects, and events to spark passion and build community.

*"Girls Who Code is a space where everyone is rooting for each other. We inspire each other, and we always welcome anyone who wants to join."*

Trisha M., Club Facilitator
