## BRIANT AND AINSWORTH TO RETIRE FROM MORRISON BROS. CO.

After a combined 92 years in the petroleum industry, Kelly Briant and Bud Ainsworth will retire from Morrison Bros. Co. effective June 30, 2021.

Briant joined the company in 1991 as Southeast Regional Sales Manager. "Morrison Bros. is grateful to Kelly for his 30 years of service to the company," commented Jerry Schollmeyer, Sales Manager. "Kelly has made many wonderful contributions to the success of the company during his tenure. It has truly been a pleasure to have him representing Morrison for the past three decades."

*Kelly Briant, Retiring*

Ainsworth joined the company in 2003 as Midwest Regional Sales Manager. According to Schollmeyer, "Bud developed some very strong relationships in our industry. Through these relationships, Bud has successfully promoted Morrison products for the past 18 years. We sincerely thank Bud and wish him well."

Morrison Bros. is currently working to realign account responsibilities amongst the experienced members of the sales team. Therefore, product orders and questions should be directed to our customer service department at 800-553-4840 or via email at [custserv@morbros.com](mailto:custserv@morbros.com). For sales-related questions, please contact Jerry Schollmeyer, Sales Manager, at 563-587-2119 or via email at [jschollmeyer@morbros.com](mailto:jschollmeyer@morbros.com).

### About Morrison Bros. Co.

Established in 1855, Morrison Bros. Co. is among the oldest private manufacturing companies in the Midwestern United States. Morrison Bros. Co. is one of the more recognized and respected designers and producers of petroleum marketing equipment in the United States and abroad.

Morrison Bros. Co. offers more than 1,200 different products including one of the most complete lines of aboveground storage tank equipment. Morrison products cover a broad spectrum of the industry, including aboveground storage tank equipment, tank accessories for retail service stations, transportation equipment, environmental monitoring, bulk fuel storage, and certain industrial applications for fuel and water systems.
