OUR WHY:

Imagine a world where every child has the chance to thrive, no matter where they start. Many challenges facing youth have existed for multiple generations and the need to change the systems that hold these problems in place is growing.

We are Achieve Brown County, a county wide movement of individuals and organizations committed to improving systems that affect our young people's learning and early career achievements.

Rather than reacting to problems, we're getting ahead of them, using data, connecting the dots and driving progress. **Together, we will create a Brown County where all young people can thrive.**
