

Heads Up Dashboard Overview

Filters

The CMS Compass Heads Up Dashboard includes a filter at the top right of the page. When using these filters, the entire dashboard will update based on the set parameters. Users have the option to filter by:

Location Types
Service Companies
Favorite CS

Missed Timer

The Missed Timer widget displays a pie graph, as well as a legend, both of which are clickable. Clicking the pie graph will show account details, which can be exported. If an item in the legend is clicked, the results will be filtered by that time frame. Accounts will appear on this widget using the default parameters below. Parameters may be adjusted by the user via the administration tab under "Default Settings" → "My Dashboard".

Daily – 7 Consecutive days of missed test
Weekly – 14 consecutive days of missed test
Monthly – 90 consecutive days of missed test
