TESTIMONIAL

As the owner of a local restaurant in Port St Lucie, my friend at Compass Health opened my eyes to help my staff get health, dental, and accident insurance. He asked me when his staff could come in and do a presentation; I said can you arrive at night after we close, and they did. My staff and I are so grateful for them, and I am relieved that my staff all has insurance. I have contributed to their monthly premium to offset their costs. Thank you, Compass Health.
