

ASSESSING STUDENT LEARNING IN HEALTH EDUCATION

**Los Angeles County
Office of Education**
Serving Students • Supporting Communities
Leading Educators

EVENT DESCRIPTION

Just as our focus in health education has shifted from knowledge-based education to knowledge and skills-based education, so must our assessment techniques shift. Health education teachers need a collection of tools to capture evidence of learning as students demonstrate what they know and are able to do.

Participants will

- Understand the assessment cycle process as it relates to standards-based instructional design.
- Discover the nuances of health education standards assessment that aim to increase health literacy.
- Identify possible assessment tools that assess learning of health essential concepts and skills in the health education content standards.

WHEN/WHERE

This virtual workshop will take place on March 14, 2022 from 2:00-4:00 PM.

For questions regarding registration, please contact Michelle Presley by email at PEHealth@lacoed.edu.
