# EasyStand Evolv

People who have difficulty standing up from a seated position may need a sit-to-stand lift. Including people with arthritis or back pain, or adults who are able to bear some of their own weight.

**NOW**  
**\$1,999.99**  
~~\$3,294.00~~

## Who can use the sit-to-stand?

- People who can bear some of their own weight
- People who have upper body strength
- People who can follow simple instructions
- People who have insufficient standing tolerance
- People who are unable to lift themselves from sitting to standing without risk

## What are the benefits?

Helps prevent falls. Reduces risk of injuries to patients and caregivers. Promotes independence and dignity, and improves overall quality of life.

## How to use the sit-to-stand?

- A sling is wrapped around the patient's back
- The patient sits on the edge of a bed or chair
- The lift is used to help the patient stand up
