2023 Central New Mexico STEM Research Challenge

Regional Judges Needed!

Volunteer judges will interview elementary, middle and high school student about their science or engineering project, score them, and caucus with fellow judges to determine 1st, 2nd, 3rd places in a category.

Judges should have education, research and/or work experience in the field of study related to the category they would like to judge (i.e. physics, chemistry, engineering, etc.)

Bachelor's degree or above preferred for Senior Division. Undergrads and above may judge in Junior Division. High school students and above may judge elementary projects.
