In this Junior Library Guild digital program, some books will rotate/change every month; under each book cover *note the days left that the book will be available*. Click on the book cover itself for more book details including a book description. The book cover icon in lower right will tell you whether it’s an eBook (page icon) or an audiobook (headphones icon).

“**JLG Digital**” app is available if you have an iPhone or Apple computer (Android is coming). If you download this, you can download your book and read/listen even without a WiFi connection. Login with your personal Username and the universal Password (orioles #1). Downloaded books will disappear at the end of their assigned time, so pay attention on the JLG bookshelf to the “*days remaining*” for each title.
