

## **AMERICAN LEGION AUXILIARY GIRLS STATE HISTORY**

The American Legion Auxiliary Girls State program, first presented in the late 1930s, is one of the most respected experiential learning programs in the United States. Guided by the principle "For God and Country," the program epitomizes the ALA's mission to honor those who have brought us our freedom by continuing to train young women to be leaders grounded in patriotism and Americanism. ALA Girls State participants become extremely knowledge-able about the democratic process and how our republic works at the state and national levels.

About 16,000 young women participate in weeklong ALA Girls State programs across the nation each summer that teach government from the city to state level. Using a nonpartisan curriculum, participants assume the roles of government leaders, campaigning as "Federalists" and "Nationalists" to become elected officials in their mock ALA Girls States. During the immersive learning program, delegates live in "cities" in a dormitory at Bethel University. The knowledge, memories, and friendships they take home last a lifetime.

ALA Girls State has been heralded by the National Association of Secondary School Principals (NASSP) and has been placed on the National Advisory List of Contests and Activities.

AMERICAN LEGION AUXILIARY  
MINNESOTA GIRLS STATE**

ALA Minnesota Girls State is a program in government and good citizenship for young women sponsored by the Minnesota American Legion Auxiliary (ALA).

**WHAT IS AMERICAN LEGION AUXILIARY  
MINNESOTA GIRLS STATE?**

ALA Minnesota Girls state is a diverse group of young women who share a common desire to learn. From small towns to urban areas, the citizens' diverse backgrounds add spirit to the program. The purposes of the ALA Minnesota Girls State program are to provide Americanism and good citizenship training and to inform our participants about the duties, privileges, rights and responsibilities of government as practiced in a democratic society.

Each June, the ALA Minnesota Girls State "Citizens" study the Minnesota city, county, and state governmental processes. Citizens are divided into two fictional political parties gaining knowledge of the operations of a two-party system. They formulate their cities electing the officials and then proceed on to county development and finalize with state government. Elections are held to fill the city, county and state governmental positions. Activities include political party campaigning, caucusing, debating and voting. Parliamentary procedures are also used in the processes.
