

# Kindergarten Observation Night

## Tuesday November 19

**Who is invited?** Kindergartens and families.

There will be tables of different **“observe and notice”** science experiments for you and your Scientist to explore.

### **When should you arrive?**

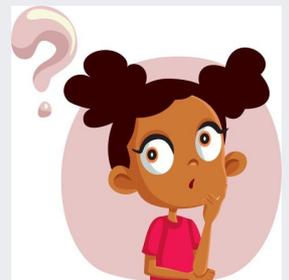

Observation Night will run as an open house. Come and go from 5-5:45pm

### **Where will the fun be located at?**

Kindergarten Observation night will be located in the front foyer at Aquila Elementary. Enter through the main doors.

### **Why highlight science?**

*Studying science is important for kids because it encourages critical thinking, problem-solving skills, and curiosity. Students will learn to observe, ask questions, experiment, and analyze data.*

### **What if you can't make it?**

**Don't worry!** I will send out a handout with links of some of the experiments and learning extension via Seesaw.

Hope to see you! ~ Mrs. Foudray
