Notice of Work

Dear Neighbour,

As the new development at 24 Gaukel St. in Kitchener progresses, we are continuing to undertake efforts to communicate with the surrounding neighbourhood about the upcoming construction activities. We have scheduled precast installation in the following weeks to take place in the afternoon / evening. Please note, as per O. Reg 131/20, construction activities are permitted to take place between 6am and 10pm. Furthermore, we have been granted a noise exemption from the City of Kitchener for this work, which will take place on the following dates:

- October 19 to December 31 between 10pm and 1am;

The work is intended to take place Monday – Saturday, weather permitting. This work involves running the man and material hoist periodically. We are not anticipating the surrounding neighborhoods to be affected by this operation and are taking action to minimize any noise as much as possible.

We appreciate your patience and cooperation.

Sincerely,

The Charlie West Team
