

Okaloosa County School District Proposed Half-Cent Sales Tax Project List

Okaloosa County has not had a sales tax to benefit schools in 20 years. To address all of the problems accumulated during that period, we would need approximately \$500 million. The revenue from the sales tax will fund about half of that cost. There is \$500M in need, the tax will generate \$256M dollars, and 56% will come from tourist dollars.
