### **Subject: Transportation Map Update Public Meeting**

To prepare for the future of Greeley's growth, city officials are updating the master street map within Greeley's Transportation Plan document.

The City's Transportation Plan includes a street map used by city officials to guide transportation decisions. As Greeley prepares for prospective expansion, city staff want to update the map to more accurately reflect current and future transportation priorities.

As part of the update, city officials want residents to learn more about what those changes to the transportation map might look like and share the results of feedback from two previous meetings held earlier this year.

A presentation on Greeley's transportation map and transportation planning update process, with a question and answer segment afterward, will take place during a public meeting from 5:30-7 p.m., Wednesday, Sept. 11, at the Greeley Family FunPlex, Community Room B, 1501 65th Ave.
