

Trained technicians have expertly repaired your vehicle's finish. To protect the appearance and durability of your paint finish, follow these finish care guidelines.

FINISH CARE TIPS

For the first 30 days after painting:

- Hand-wash the vehicle often, using fresh water only.
- Avoid parking under trees-sap and bird droppings may damage the finish. Rinse them off as soon as possible.

For the first 120 days after painting:

- To remove heavy soil, use mild liquid soap-do not use detergent.
- Do not polish or wax your vehicle for 120 days.

For long-term paint protection:

- Park in a sheltered area whenever possible.
- Never use a scraper to remove ice or snow from painted surfaces.
- Never let gasoline or antifreeze stand on painted surfaces. Rinse with water as soon as possible.
- Never wash your vehicle in the hot sun.
- Never wipe the finish with a dry cloth-always use water.
- Avoid use of abrasive cleaners, chemicals, or brushes.

Always wear your seat belt and please don't drink and drive. The Nissan names, logos and slogans are trademarks owned by or licensed to Nissan Motor Co. Ltd. and/or its North American subsidiaries. ©2021 Nissan North America, Inc. All rights reserved.
