

Transport Canada requires the following equipment be tested on a regular basis.

Is your aircraft up to date?

EQUIPMENT	PART VI	INTERVAL	CAR 571
ELT	604.14	1 Year	Appendix "G"
Altimeter	604.14	2 Years	Appendix "B"
Transponder	604.14/35	2 Years	Appendix "F"
Encoder	604.14/35	2 Years	Appendix "F(k)"
Compass	604.14	1 Year	-----

Considering upgrading to an ADS-B system or 406 MHz ELT?
There's a new avionics provider serving the Ottawa area!

Utilizing the latest calibrated and certified test equipment and facilities, we have the capability to test Mode-S transponders, 406MHz ELT's, and coming soon, ADS-B transceivers.
