E-CIGS & THE YOUTH VAPING EPIDEMIC: WHAT PARENTS & ADULTS NEED TO KNOW

WEDNESDAY, JUNE 9TH, 12PM EASTERN

Presented by **Parents Against Vaping e-cigs (PAVe)** in collaboration with the **The Hub** and **CT Prevention Network**.

By 10th grade, about 40% of youth have tried vaping, with cheap disposable devices skyrocketing in popularity. But behind the bright colors and sweet flavors are harmful chemicals and nicotine addiction. Join PAVe, The Hub, and CT Prevention Network for everything parents, caretakers, teachers, and any adults who work with youth, need to know.
