

# Gambling as a Co-occurring Disorder and Current Data

**Thursday, November 18 2021**  
**10am-12pm, via Zoom**

Part two of this three part training series for prevention professionals will focus on gambling as a co-occurring disorder with both substance use and mental health disorders and current national, state, regional and local gambling data that is available.

## Trainers

- **Kaitlin Brown**, Director of Programs and Services, CT Council on Problem Gambling
- **Kelly Leppard**, Primary Prevention Services Coordinator, DMHAS Problem Gambling Services

**Part 3: Save the date: Thursday, December 16th. 10am to 12pm. *How to Make Gambling Prevention a Priority***

This meets the Connecticut Certification Board requirements for 2 hours of CEUs on gambling prevention for the Certified Prevention Specialist Certification.

## Who Should Attend

- Prevention Professionals working to obtain their 6-hour problem gambling requirement for CPS certification
- Members of local prevention coalitions and organizations that support prevention initiatives
- Professionals interested in learning about problem gambling prevention in Connecticut

## Learning Objectives

- Compare the similarities and differences between gambling and substance misuse behaviors and brain biology
- Describe the co-occurring nature between mental health and gambling
- Identify and review emerging trends and current national, state, regional and local data
