

Women Build 2022 Scholarship Application

Women Build will be a hands-on activity with ample opportunities for on-site learning. Women make up over 50% of volunteers and homeowners with Habitat for Humanity, nationwide. However, they account for less than 15% of workers on the construction site due mainly to lack of training. Women Build addresses this by providing a safe place for you to learn and grow skills to build.

Each scholarship for Women Build 2022 is donated anonymously and includes a WB t-shirt, lunch, and an active day on the construction site. Lunch will consist of energy-packed food to keep everyone moving and motivated. A follow-up email will be sent to all applicants to inform them of their application status and the next steps.
