CYSTIC FIBROSIS FOUNDATION®

August 25, 2026

Mr. Thomas VandenBerge
Ohio Cobra Club
765 S High St
Columbus, OH 43206-1908

Dear Tom and Friends:

We deeply appreciate the Ohio Cobra Club's continued support of the Cystic Fibrosis Foundation's mission. Thank you for your generous gift of $190,000, received on 7/20/2026 to benefit CF research, and for your incredible commitment and partnership over the years. Your contribution will make a meaningful impact on the lives of people with cystic fibrosis.

In less than two decades, the funds raised through the Milestones campaigns have helped make five transformative therapies that treat the underlying cause of cystic fibrosis a reality, nearly doubling the life expectancy of many with CF. Many CFTR genetic mutations now have targeted therapies. And one of the world's most comprehensive patient registries gives CF researchers rich, real-world data that helps scientists uncover new insights.

Yet, as we write this, too many people with CF are in the hospital struggling to breathe because they do not benefit from existing therapies, while others battle drug-resistant infections, or experience CF-related diabetes and other serious health complications due to the havoc CF wreaks on every part of the body.

This is why we need more than treatments—we need a cure. We are boldly unleashing scientific innovation to drive the most complicated CF research forward. This requires continued, substantial investment, especially critical as research costs continue to climb. As we look to the future, we are excited about the scientific developments underway.

The Ohio Cobra Club's generosity doesn't just transform lives for those with CF—it drives scientific discoveries that could benefit researchers studying other diseases as well. The advances your gift makes possible today have the potential to help thousands more tomorrow. Thank you for all you do.

Sincerely,

Fran Kaya
