Quarterly Meeting, Food, Network & Learn

Topics to be Discussed:

Security Technology Trends

COVID-19 has completely changed the world we live in and how we go about our daily activities. Technology has helped us adapt to this new world and make the world cleaner, safer place. Cameras are no longer used just for security purposes. Now they are being used to help prevent the spread of COVID-19. Everything from people counting to contract tracking to mask detection, cameras are now being used in more ways than ever.
