IATA ONE Source is the industry platform for validated aviation capability and infrastructure information. Find the right business partner for your needs, from specific infrastructure requirements such as temperature-controlled rooms to IATA certifications. The platform makes it easier for you to find the right services where you need them.

ONE Source only lists information verified through the different IATA validation programs. It guarantees that all the data is accurate, enabling you to make better decisions for your business.

All certified companies will be registered on our newest platform ONE Source. IATA ONE Source is an online industry platform for validated aviation capability and infrastructure information.

The attached user guide provides all the necessary information, which you can also find on our website: https://customer-portal-iata.force.com/onesource/s/

IATA is taking a leading role in supporting aviation's compliance efforts through its CEIV Pharma program. Building a network of certified pharmaceutical trade lanes that meet consistent standards and assure product integrity will help air cargo to better serve this important market.

As an Independent Validator to perform IATA CEIV Pharma Audits, I believe this in Certification because it saves lives by ensuring the Supply Chain for pharmaceutical products by ensuring they meet a high standard for the transportation of temperature controlled and time-sensitive products, including vaccines, must meet pharmaceutical manufacturers' requirements.

Check out the website to see which company is CEIV Pharma Certified. They are the best in the business when it comes to ensuring the logistics of transporting pharmaceutical products.
