

Butte Environmental Council Internship Opportunity Summer 2020 – Oak Restoration Project Intern

Hour Requirements: 7-10 hrs. per week

Timeline: June – September 2020

Wage: Non Paid

The Butte Environmental Council (BEC) is a non-profit environmental organization based in Chico, California. Our mission is to protect and defend the land, air and water of Butte County and the surrounding region. We enact our mission through advocacy, education, and outreach. Throughout its 45 years, BEC has had a significant voice in shaping the environment and policies of Butte County and beyond.

BEC has office space in downtown Chico, near CSU, on Walnut Street. Interns are provided workspace in the BEC office as needed and will have opportunities to earn hours both in and out of the office, doing both event/program planning and day-of coordination. Due to COVID-19, work schedules of interns may be conducted more regularly from home when there is not a need to be in the office or in the field of work.

Oak Restoration Project Internship

Oak restoration project interns at BEC have the opportunity to acquire a deeper understanding of the native oak woodland habitat areas of Bidwell Park. A main focus of the oak restoration project intern will be assessing factors that lead to thriving oak woodlands and factors that lead to decreased oak survival rate. We are looking a recent graduate or current student interested in and/or have experience in a variety of project activities such as:

- Watering oak saplings in Bidwell Park
- Assessing survival rate of saplings and creating visual maps
- Creating physical and online educational materials
- Conducting research on behalf of local and native habitat areas
- Working with community volunteers

Possession of a CA Driver's License and a truck to carry oak watering materials is highly preferred, but not necessary.

Please send a resume and cover letter explaining why you would be a good fit for this internship to the contact information below.
