

St. Charles Christian Church has a vehicle available for sale.

It's a 2008 Chevrolet Shuttle Bus 3500

- This puts it just under the limit for requiring a CLP drivers license.
- Anyone with a driver's license can drive it.
- We replaced the engine block when we bought it at a state auction. So that's relatively new.
- The seats are also relatively new. They were replaced after we purchased it because some neighborhood kids got in and destroyed the seats. Insurance paid for the new seats.
- It has an emergency exit door in the back..
- Our insurance covers it without any additional riders, as will most policies because it's less than 15 seats.
- It has heat and air conditioning that are working well.
- Some windows are difficult to operate, so we keep them closed most of the time.
- Miles are approximately 102,000

Please call the church office at (636) 947-1821 for more information.
