

Advancement Update: December 31, 2016

The District Advancement Chairs have been working with all units, specifically tracking newly registered cub to Bobcat rank. We are still lagging behind in Cub Scout advancement. If you have reported advancement, thank you. Not all advancement has been logged into the system, but soon will be. Thankfully, there is a lot to log. Once that is complete, it will better reflect your advancement efforts. If you still have Cubs that haven't reached Bobcat, work on that as soon as possible. As mentioned before, it takes a very short time to complete the Bobcat rank. It can all be accomplished indoors, so this is a good time to take care of that. Make that effort so the boys feel like they belong to Cub Scouting. Get them started on the scouting trail.
