

# LETTER *of* RECOMMENDATION

*We would like to thank Dirk-Jan and his team from Nautical Trade Pilots for the input, support and guidance they gave us at the start-up of our new branch sales and support within our company.*

*Being a technical oriented company we decided to contract NTP on a project basis to guide us technicians through the world of sales and project management without losing our technical roots.*

*I could recommend NTP to everyone who is unfamiliar with sales and project management or who has simply got no time for this. We surely will use their services again in the future!*
