Background:

The Streetsville Centre Plaza has been a central gathering place for many years, but its current state no longer meets the needs of the growing community. As a result, the property owner has proposed a redevelopment plan to create a more sustainable, livable, and vibrant community space that benefits both the local residents and businesses. The proposed redevelopment plan includes a mix of commercial, residential, and community space, as well as enhanced public realm amenities. The proposed development features over 8,000 square metres of new public space, including new green space and a market square that will contribute to a positive pedestrian experience along Queen Street S. Once completed, the project is intended to provide a more diverse range of housing options, support local businesses, create new jobs, and enhance the overall livability of the area.

Please RSVP at the email address below to let us know you'll be joining us for the in-person session. If you are unable to participate in-person, you can reach out to us with your comments and questions using the contact information provided:
