

# CUAHSI Water Data Services Workshop

Come to the CUAHSI Data Services Workshop to learn about CUAHSI's Water Data Services to:

- Develop data management plans using online tools and templates;
- Search for and download a broad array of water data, including time-series data, water chemistry, spatial coverages, and more;
- Utilize water-domain apps and tools to expedite and document your workflows;
- Opportunities for graduate student training and funding.

**Where:** Saguaro Hall 219

**When:** Tuesday, January 29 from 11:00 a.m. - 1:00 p.m.

**What:** Bring a laptop and any data you are interested in archiving.

If you are looking for specific data types, please email [help@cuahsi.org](mailto:help@cuahsi.org) ahead of time.
