

PROJECT ALERT

ROAD REPAIRS IN CORAL BAY

Date: Tuesday, August 18, to
Friday, August 28, 2026

SUMMARY:

The Department of Public Works (DPW) informs the public of road repairs in Coral Bay and along Centerline Road (Route 10) on St. John.

On Tuesday, August 18, 2026, DPW contractor Grace Civil LLC commenced the first phase of road repairs, which will continue through Friday, August 28, 2026, from 7:30 a.m. to 5:00 p.m.

The project includes milling and paving segments of the roadway, beginning in the Upper Carolina area of Coral Bay and continuing along Centerline Road (Route 10). One-lane closures will be in effect during working hours to accommodate construction activities.

Motorists should expect delays, exercise caution, obey all traffic control devices, and follow directions from flaggers. Residents and commuters are encouraged to plan accordingly and allow additional travel time.

DPW appreciates the public's patience and cooperation as it continues working to improve road conditions throughout the territory.
