TEMPORARY CLOSURE OF LONG BAY PUMP STATION

(St. Thomas, USVI) - The Virgin Islands Waste Management Authority (VIWMA) advises the community of the temporary closure of the Long Bay Pump Station. Effective immediately, the station will discontinue receiving sludge, grease and septic material. The Authority is conducting clean up procedures to bring this station back on-line. In the meantime, haulers are asked to hold their sludge until Saturday, September 3rd at which time they can bring it to the Mangrove Lagoon Wastewater treatment plant.

The VIWMA apologizes for any inconvenience this may cause and thanks the community for their patience and cooperation.

Please call 844-WMA-USVI (844-962-8784) to report any illegal dumping, sewage overflow or service interruption. For more information, contact the Division of Education and Communications Management at 340-513-4171 or email communications@viwm.org. Also, follow us on Facebook and/or Twitter.
