USVI Healthcare Coalition

FEMA | Center for Domestic Preparedness

Urgent Communications to Healthcare Partners: Free Critical Training for CMS Compliance

Health Sector Emergency Preparedness II: Planning, Response, and Recovery will be offered virtually throughout the month of June with July dates to be released soon. The attached schedule includes additional offerings that may be essential to your organization and classes will be offered that will be mission specific in the upcoming months. We hope to begin to add in person teaching as well, as this joint venture continues.

The HSEP II class will start promptly at 9:00 AM and end promptly at 5:00 PM.

We would also like to encourage all students to apply for the virtual Seminars.

To apply for this class and seminars follow the instructions below:

1. Have your FEMA Student Identification (SID) number and password. You ***must*** have a FEMA SID number ***before*** you can apply for the class.

- If you need a FEMA SID number, go to: https://cdp.dhs.gov/FEMASID and click "Register for FEMA SID" or click "Forgot FEMA SID?" if you have forgotten your FEMA SID.
- Registering for a FEMA SID number ***does not*** register you for this class. You must apply for the class separately and register **48**hrs in advance.

2. To apply for the class: https://cdp.dhs.gov/students

- Enter your FEMA SID and password.
- A CDP Training Registration System (TRS) application will open.

Copy and Paste the promo code into the promo code box exactly as it is written below

- Complete the required fields.

Note: For **Private Sector** participants, when completing the application, please select **Local Government** for the jurisdiction.

- Click the "Review and Submit Application Now" button.
- Complete the application process by clicking the affirmation checkbox and providing your digital signature by entering your name and FEMA SID password.

See schedule of class offerings with description of HSEP II below.

For questions or inquiries email: viltsupport@cdpemail.dhs.gov

You MUST sign up for the courses 48hrs in advance!

JUNE 2021	Note: HSEP II is a two-day course; both days are mandatory for certification	Course Promo Code: Note: must be entered exactly as appears below
June 1-2	HSEP II	21NV-1883 HSEP II
June 3-4	HSEP II	21NV-1891 HSEP II
June 8-9	HSEP II	21NV-1943 HSEP II
June 10-11	HSEP II	21NV-1946 HSEP II
June 15-16	HSEP II	21NV-1956 HSEP II
June 17-18	HSEP II	21NV-1959 HSEP II

Additional classes	Note: these virtual seminars Descriptions are available in student portal.	Course Promo Code: Note: must be entered exactly as appears below
1-Jun-21	Hospital Incident Command Systems	21NV-1884 HCV7
2-Jun-21	Crisis Standards of Care and Treatment Decision-Making	21NV-1887 HCV1
3-Jun-21	Hospital Incident Command Systems	21NV-1892 HCV7
4-June-21	Crisis Standards of Care and Treatment Decision-Making	21NV-1895 HCV1
7-Jun-21	Emergency Medical Response Awareness for CBRNE Incidents (EMRA)	21NV-1941 EMRA-V
7-Jun-21	Special Needs Population Considerations During Emergency Response	21NV-1942 HCV3
8-Jun-21	Medical Surge Management	21NV-1944 HCV4
9-Jun-21	Special Needs Population Considerations During Emergency Response	21NV-1945 HCV3
10-Jun-21	Medical Surge Management	21NV-1947 HCV4
14-Jun-21	Health Sector Emergency Preparedness (HSEP)	21NV-1954 HSEP
14-Jun-21	Pathogens of Special Concern	21NV-1955 HIDV2
15-Jun-21	Special Needs Population Considerations During Emergency Response	21NV-1957 HCV3
16-Jun-21	Patient Management: Management of a Highly Infectious Disease Patient in a Healthcare	21NV-1958 HIDV4

Health Sector Emergency Preparedness II: Planning, Response, and Recovery	The purpose of the course is to prepare designated staff members from the seventeen healthcare providers and suppliers designated by the Center for Medicare and Medicaid Services to plan, prepare for, respond to, and recover from disasters and emergencies in their communities. The course addresses the intent and requirements of the 2016 Center for Medicare and Medicaid Services Final Rule, conduct of a hazard vulnerability analysis, determination of detailed requirements for an emergency operations plan and the conduct of incident action planning, emergency communications planning and stakeholder communication and messaging, planning and execution of emergency management training and exercises, and responding to and recovering from a disaster or emergency as an integrated member of a community health system. The course concludes with a culminating exercise that walks through the requirements and considerations for responding to and recovering from a disaster or emergency as an integrated member of a community health system.	16 hours

USVI Healthcare Coalition

Emergency Medical Response Awareness for CBRNE Incidents	The purpose of this course is to provide emergency medical responders and healthcare clinicians with knowledge in on-scene and hospital-based triage and treatment of chemical, biological, radiological, nuclear, or explosive (CBRNE) victims in a mass casualty incident. Through this course, the student receives knowledge and practical experience in the triage and treatment of CBRNE mass casualty victims. The student receives a review of the CBRNE threat and associated symptoms; on-site and hospital triage and treatment of victims; and performs scenario-based triaging decision games to provide experience in the critical thinking abilities required to quickly triage and treat CBRNE mass casualty victims.	8 hours
Crisis Standards of Care and Treatment Decision-Making	Defines and explores the potential causes resulting in crisis standards of care, discusses potential situations resulting in prioritization of care, and explores legal, moral, and ethical considerations and mechanisms for making care decisions based on limited resources or capabilities.	1.5 hours
Special Needs Population Considerations During Emergency Response	Provides an overview of the requirements, capabilities, and considerations necessary to ensure special needs population requirement are addressed during planning, preparedness, response, and recovery.	1 hour
Medical Surge Management	Examines the process for medical management of the immediate response phase of a mass trauma event. Explores considerations and challenges of establishing triage and life-saving interventions at the scene, transition of patients to healthcare facilities, and the prioritization and providing of emergency, life-saving treatment at a healthcare facility to do the most good for the most patients.	2 hours
Hospital Incident Command System	Introduction to the Hospital Incident Command System as a methodology for effectively applying the incident command system in a healthcare environment. Addresses organization and responsibilities of the Hospital Incident Command Team and the process for performing Incident Action Planning.	2 hours
Pathogens of Special Concern	A discussion of characteristics and patient management considerations for pathogens of special concern based on transmissibility and mortality.	1.25 hours
Patient Management: Receiving a Highly Infectious Disease Patient	A discussion of infectious disease patient management processes for effectively receiving patients who are self-presenting, transported by EMS, or transferred from a community health provider.	1.75 hours
Patient Management: Management of a Highly Infectious Disease Patient in a Healthcare Facility	A discussion of the critical processes, procedures, and considerations for safely managing a highly infectious disease patient in a healthcare facility.	3.0 hours
