#WeRideForElla

What is Rett syndrome?

Imagine the symptoms of Autism, Cerebral Palsy, Parkinson's, Epilepsy and Anxiety Disorder … all in one little girl.

We cordially invite you to join us on the 1st Annual **STT Cross-Island Challenge Ride** to be held on July 3rd, 2021.

The STT Cross-Island Challenge Ride is a bike challenge for serious bikers and family bikers alike. First of its kind to be held on St. Thomas, we will have a 20-mile "Tip of the Spear" bike ride for adults starting at 6am. But, the fun doesn't stop there! At 8:30am, our serious bike riders will meet our family riders/runners/walkers for a Family 5K parade down the promenade from Port of Sale to Crown Bay where we will meet up with Ella for refreshments, games, and more!

Registration is available online at www.cyclevi.org where you and the family can register to ride or donate to support Ella's Hope! Over *300,000* little girls and women are affected by Rett syndrome worldwide. Ella Gaspard, a Virgin Islander was diagnosed with this devastating condition. And, this year, #WeRideForElla!

Ella's Hope Mission

To educate and extend global awareness of Rett syndrome.
To fund research grants to world-renowned organizations and universities in pursuit of a Rett syndrome cure.
To find a cure, so every little girl that suffers from this devastating condition can live a life full of ***recovery, joy, and contribution.***

ALL FOR A CURE: 100% of all proceeds raised from the STT Cross-Island Challenge will be donated to Rett Syndrome Research Trust (www.reverserett.org) to fund research grants for a Rett syndrome cure. Visit www.ellashope.com/werideforella for more information.

Please see the sponsorship page for further donation information. For more information on the STT Cross-Island Challenge: #WeRideForElla please visit https://www.cyclevi.org or email Joanne at j.moorehead@strategygroupvi.com.

Thank you for supporting us but, most important, for supporting Ella and Rett Syndrome girls.

#WeRideForElla
