

Business Assistance Services (BAS)

Your all-in-one toolkit for confidently tackling challenges and growing your business

Designed for businesses of all types and sizes, our solutions provide:

- ◆ **expert guidance** from accredited HR, financial and legal professionals with a wealth of knowledge and experience across different business sectors and Canadian jurisdictions.
- ◆ **exclusive digital business library access**, with the latest resources for effectively managing your business, your people and yourself—including plug-and-play samples and templates, comprehensive guides, summaries of relevant legislative updates and so much more.
- ◆ **preferred pricing on digital learning opportunities**. We've simplified learning and development with a growing collection of flexible course offerings built by thought leaders. Topics range from workplace culture and wellness to business development, finances and everything in between.
- ◆ **professional, solution-focused coaching*** for one business owner per firm to help proactively manage workplace challenges while unlocking your full potential and boosting resilience.
- ◆ **support for critical incidents impacting the workplace****, led by a professional trained to offer specialized clinical intervention in the wake of a traumatic event. This timely group support helps employees with healthy processing and building resilience to minimize the incident's impact on mental health and well-being.

*Coaching hours are for one business owner per firm and are not transferable.

**Additional fees may apply.
