

Lynn Fitch
STATE TREASURER

Rating Agency Visits

This week, Governor Bryant and I are conducting our annual visits with the three credit rating agencies, Fitch Ratings, Standard and Poors (S&P), and Moody's. It is our opportunity to share with them all the positive strides forward our State is making and how we are meeting our challenges, as well.

I am pleased to note that in advance of our meetings all three of the rating agencies reviewed our credit ratings and affirmed them as:

Fitch Ratings: AA/Stable

S&P: AA/Negative

Moody's: Aa2/Negative

Remember: The State's credit ratings are like your credit scores. Better ratings mean that Mississippi can borrow at better rates, saving taxpayers money. Protecting our credit ratings is one of my top priorities as your Treasurer.
