### **MACS Administrator Transition Almost Complete**

In our ongoing effort to provide the very best possible customer experience for Mississippians, the College Savings Mississippi Board selected a new plan administrator for the Mississippi Affordable College Savings (MACS) program.

Intuition College Savings Solutions, which already serves in this role for MPACT (Mississippi Prepaid Affordable College Tuition), has a track record of excellent customer service and the ability to deliver low investment fees. In addition, their innovative use of technology and broader range of quality investment options makes them a great fit for MACS.

This past weekend, we began the process of transitioning to Intuition. If you are a current MACS customer, there is nothing you need to do. It should be a seamless process, finishing up today. If you have any questions, I encourage you to watch my transition [video](#) or read our transition [newsletter](#).
