Career Opportunities with TAD PGS

Please find below the latest TAD PGS, Inc job report.

Once a veteran has found a specific position, email sarah.marich@adeccona.com <<mailto:sarah.marich@adeccona.com>> a copy of their resume and the role for which they are applying. Be sure to INCLUDE the job ID number in the subject line and we will contact the recruiting team on your behalf. Do not have your veterans apply for a position directly on the website, as we will not receive notification that they are a veteran and won't be able to follow up with the appropriate recruiting team. It's that easy!

To find job information please follow the steps below

1. Go to www.tadpgs.com

2. Click on “Find a Job”
3. Click on “Search Jobs”
4. Enter the JOB ID number from the Job Report
5. Click on “Find Jobs Now” (If the job is not found the position is no longer available)

Veterans, spouses, and persons with disabilities are highly encouraged to apply.

If you know of any other DVOP's, LVER's, organizations, or individuals who might be able to reach out to more veterans to help them get employment, please have them contact me, and I will include them on the distribution list for the weekly job report.

We look forward to continuing to work with and supporting your veteran candidates.

Ben Marich

Veteran's Outreach Manager
Ben.Marich@adeccona.com

Veterans, spouses and persons with disabilities are highly encouraged to apply.

Directions To Applicants: To apply for a specific position, email sarah.marich@adeccona.com a copy of your resume and the role for which you are applying. Be sure to INCLUDE the job ID number in the subject line and we will contact the recruiting team on your behalf.

It's that easy!

Raytheon Opportunities in TX

A. Sr. Systems Engineer I

Raytheon Technologies

Fort Hood, Texas

Full time

The Systems Engineer will run engineering tests to troubleshoot radar system anomalies (e.g. REX, BSG, Antenna/Sub-Array/TRIMMs). Provide weekly reports on the status of engineering activities and maintaining a Radar performance notebook with such data as EI Ops runs, satellite tracks, IMU measurements, and radar calibration as required. Notebook entries will be forwarded to the Missile Defense Center (MDC) in Woburn, MA for performance monitoring and data analysis and regression testing as required. Assist in the establishment of RF Hazard/Keep-Out Zones (KOZs). Assist in the development and implementation of site-unique radiation procedures. Comply with all QA and Automated Logistics Control System (ALCS) reporting requirements associated with providing accurate and complete data in a timely manner. Maintain the health and status of the radar as well as running the radar missions.

Travel is predominately domestic with some opportunities for international travel. Total travel is approximately 40%.

Responsibilities include;

- Provide technical support for the site Radar systems issues and troubleshooting efforts as needed or directed by site manager.
- Oversee the Engineering Change Notice (ECN) implementation through closure.
- Run regression testing as required.

- Plan mission tests, and develop new mission profiles by deliberative planning loaded into the radar and validated.
- Execution of mission testing.
- Engineering support for Configuration Management (CM) for hardware and software.
- Establish data collection/reduction/analysis requirements and procedures for the radar system.
- Assist in the establishment of RF Hazard/Keep-Out Zones (KOZs).
- Assist in the development and implementation of site-unique radiation procedures.
- Evaluate the adequacy and technical content of the FBX-T System Operator's Manual TM FBX-T-10-1 Operating Instructions, Procedures, and Work Packages. Suggest modifications as appropriate.
- Evaluate the adequacy and technical content of the AN/TPY-2 Radar Set-Up & Test Plan, and the AN/TPY-2 Radar Environment, Health & Safety Plan. Recommend modifications as appropriate.
- Evaluate the adequacy of the existing radar system planned maintenance program.
- Comply with all QA and Automated Logistics Control System (ALCS) reporting requirements associated with providing accurate and complete data in a timely manner.
- Performs other related tasking and supports the Radar Site Manager.

Required Skills:

- Minimum of 4+ years of engineering experience working with Radar systems working with UNIX and/or Matlab.
- Experience with software/systems integration planning and execution.
- Must be able to travel as described above

- Must be able to obtain certification within 60 days.
- Active Secret security clearance.
- This position requires the eligibility to obtain a security clearance. Except in rare circumstances, only U.S. citizens are eligible for a security clearance.

Desired Skills:

- Experience with DoD or Missile Defense Programs
- AN/TPY-2 Radar
- Active CompTIA Security+ Certification
- Proficient with MSOffice applications

Required Education:

- Bachelor's Degree in Engineering, Math, Science or related discipline with 4 years of related experience.

B. Mgr II Supply Chain Compliance

Raytheon Technologies

McKinney, TX

Contract

Raytheon Intelligence and Space (RIS) is seeking a Mgr II SC Compliance, who is generally referred to as a Supply Chain (SC) Advisor, who will report to the Manager, RIS SC Advising, in Aurora, Colorado. As a SC Advisor, this person primarily provides advice, assistance and drafting support in the areas of procurement and subcontract administration. The SC Advisor will: review purchase order and subcontract documentation for appropriate procurement attachments and terms and conditions which comply with applicable company policies and procedures, internal guidance briefs, federal, state, and local laws, as well as the Federal Acquisition Regulation (FAR) and supplements thereto; draft terms and conditions that provide the best protection and benefit to the company under the circumstances of the specific situation; research legal issues for management or the General Counsel's office; advise buying personnel, subcontract managers, SC managers, and program managers on contract issues such as warranty interpretation, limitations of liability, termination for convenience or default, preservation of rights, novations, complex software licensing for both COTS and FOSS software, intellectual property issues, teaming agreements and alternatives to teaming, and proprietary information agreements; help establish negotiation objectives, and assist in negotiations regarding contract clauses and deviations from standard provisions; review and advise SC on performance issues such as insolvency or the need for source code escrow; assist management in the streamlining of business processes, policies and in oversight reviews; keep requesters informed of progress and handle short time frames; provide training; support SC across the RIS Business Unit, and support the Raytheon Intelligence and Space Advisors Group; interface with RIS SC Counsel on high risk and complexity issues; review complex intellectual property issues with Intellectual Property Counsel as appropriate; and maintain active communication with requesters, management, and General Counsel's office on significant legal problems and issues.

This position's preferred location is Aurora, CO, Dulles, VA, McKinney, TX, Richardson, TX, or El Segundo, CA. Other locations may be acceptable dependent upon business needs.

Requirements:

- 8+ years of Supply Chain, Government contracts, or legal experience, or a combination thereof.

- Must be US citizen with TS/SCI security clearance or ability to obtain. Can be initially hired without a clearance or access, but candidate may be required to complete forms and obtain and maintain appropriate clearance and access in a reasonable timeframe.
- Requires knowledge of legal areas involving the Federal Acquisition Regulation (FAR), supplements to the FAR, and government contract procurement processes.
- Must be detail oriented, have strong analytical skills, and excellent ability to develop options and solutions that are practical and can be readily acted upon.
- Must have excellent oral and written communication skills.
- Must be able to conduct legal research.
- Should have a cheerful "can do," cooperative attitude, but assertive when necessary to comply with company policies and Government regulations and laws.
- Must demonstrate flexibility while providing the best protection and benefit to the company under the circumstances of the specific situation.

Desired Skills:

- Strongly prefer applicant have a Juris Doctor (law degree). Admission to a State Bar, such as the Colorado Bar, or the District of Columbia Bar, is preferred but not required.
- Familiarity with Supply Chain (SC) processes and procedures.
- Knowledge of export/import law and issues.
- Knowledge and experience in reviewing free and open source software (FOSS) and providing guidance.

- Knowledge and experience in the FAR and Government contract procurement processes.
- Significant legal, Government contracts, or SC experience in areas relevant to the required and desired skills mentioned above.

Required Education (including Major)

Bachelor's Degree. Strongly prefer Juris Doctor.

This position requires either a U.S. Person or a Non-U.S. Person who is eligible to obtain any required Export Authorization.

Wells Fargo Opportunities in TX

A. Private Mortgage Banker (SAFE) (2)

Wells Fargo

The Woodlands, TX

Reference Number: 5540528-1

Full time

Job Description:

Important Note During the application process, ensure your contact information (email and phone number) is up to date and upload your current resume prior to submitting your application for consideration. To participate in some selection activities you will need to respond to an invitation. The invitation can be sent by both email and text message. In order to receive text message invitations, your profile must include a mobile phone number designated as 'Personal Cell' or 'Cellular' in the contact information of your application.

At Wells Fargo, we want to satisfy our customers' financial needs and help them succeed financially. We're looking for talented people who will put our customers at the center of everything we do. Join our diverse and inclusive team where you'll feel valued and inspired to contribute your unique skills and experience.

Help us build a better Wells Fargo. It all begins with outstanding talent. It all begins with you.

Consumer Banking is an industry leader in supporting homeowners and consumers in addition to operating one of the most extensive banking franchises in the country. We serve mass market, affluent, and small business customers; as well as provide home and personal lending. Our focus is on delivering an exceptional experience for our customers through financial advice and

guidance coupled with providing the products and services that will help them realize their financial hopes and dreams. We've built our team of top professionals by rewarding their accomplishments and ensuring they have what's needed to succeed.

This SAFE position has customer contact and job duties which may include the offering/negotiating of terms and/or taking an application for a dwelling secured transaction. As such, this position requires compliance with the S.A.F.E. Mortgage Licensing Act of 2008 and all related regulations. Ongoing employment is contingent upon meeting all such requirements, including acceptable background investigation results. Individuals in a SAFE position also must meet the Loan Originator requirements under Regulation Z (LO) outlined in the job expectations below.

We have an immediate opening for a Private Mortgage Banker. This individual is responsible for producing high quality jumbo residential mortgage loans that meet Wells Fargo Home Mortgage guidelines by building relationships focused on affluent borrowers with realtors, builders, financial professionals, bank stores, past customers, and other non traditional sources. Strong sales and organizational skills are essential. Bi-lingual job seekers are encouraged to apply.

Additional duties include:

- Develop knowledge of company products, policies and procedures, and underwriting requirements
- Understand real estate appraisals, title reports, and real estate transactions
- Inform prospective and existing customers of WFHM programs, rates, policies, underwriting requirements, and loan procedures
- Analyze detailed financial and credit data, matching customer needs with an appropriate loan program and level of risk
- Receive customer applications, quote the rate and points, and complete follow-up activities with the registration lock-in
- Develop and maintains a high degree of visibility for WFHM in the marketplace

- Perform miscellaneous duties as needed and required

Required Qualifications:

- 2+ years of sales experience in financial services, outside sales experience, or a combination of both

Desired Qualifications:

- Basic Microsoft Office skills
- Documented retail residential mortgage fundings over the past 12 months referred primarily from established, local, external sources
- Excellent verbal, written, and interpersonal communication skills
- Mortgage industry experience
- Knowledge and understanding of sales prospecting and generating referrals
- Bilingual speaking proficiency in Spanish/English
- Customer service experience
- A BS/BA degree or higher
- Experience working with ultra-high-net-worth clients

Job Expectations:

- This position requires SAFE registration at the time of employment. Wells Fargo will initiate the SAFE registration process immediately after your employment start date. The Nationwide Mortgage Licensing System (NMLS) web site (<http://fedregistry.nationwidelicensingsystem.org>) provides the MU4R questions and registration required for employment in this position.
- Individuals in Loan Originator (LO) positions must meet the Consumer Financial Protection Bureau qualification requirements and comply with related Wells Fargo policies. The LO qualification requirements include meeting applicable financial responsibility, character, general financial fitness and criminal background standards. A current credit report will be used to assess your financial responsibility and credit fitness, however, a credit score is not included as part of the evaluation. Successful candidates must also meet ongoing regulatory requirements including additional screening, if necessary.
- This position requires compliance with all mortgage regulatory requirements and Wells Fargo's compliance policies related to these requirements including acceptable background check investigation results. Successful candidates must also meet ongoing regulatory requirements including additional screening and required reporting of certain incidents.
- Ability to lift 20+ pounds
- Reliable transportation
- Ability to work nights, weekends, and/or holidays as needed or scheduled

Microsoft Opportunities in Irving TX

A. Relationship Manager

Microsoft

Irving, TX

Full time

Your focus is to support customers deploying to the Microsoft Cloud. As a Relationship Manager, you will represent Microsoft in communications via phone, email, or web to assist customers in deploying Microsoft Office 365 and the Enterprise Mobility + Security (EM+S) suite of products. You will have the opportunity to foster positive customer relationships while effectively managing challenging situations and driving customer success.

Your Key Business Metrics Will Be:

- Customer and partner onboarding satisfaction
- Help reduce time/cost to onboard
- Drive customer success and adoption of all purchased workloads
- Providing high quality data back to the Business Groups to help drive service improvement

Responsibilities:

- Understand and drive Microsoft Cloud deployment and adoption, working with the customers and partners to drive success with Office 365 and the EM+S.
- Provide consulting, resolution advice to partners that will improve the customer experience. Offer consultative guidance to others and share expertise.
- Work with readiness and training team to optimize the curriculum, reducing the delivery time requirement or to enhance the material.
- Analyze, develop and communicate key Onboarding process and technology improvement feedback for the FastTrack Center end to end process (Onboarding, Migration and Adoption).

Qualifications:

- Microsoft Cloud technical competency: Experience or broad knowledge in deploying Office 365 and/or EM+S.
- Cloud adoption competency: Possess the knowledge and personal conviction to articulate why the cloud and Office 365 and/or EM+S in particular is a transformational industry change.

- Customer and Partner Focus: Demonstrated skills and abilities to consistently create an amazingly positive experience for our corporate customers and Partners.
- Collaboration: exceptional collaborator on complex multi-faceted programs across multiple groups with varying priorities.
- Adoption Focus: Possess the knowledge and confidence to help motivate a customer's adoption of their purchased Microsoft cloud-based workloads based on an understanding of customer needs.
- Communication Skills - Spoken and written English and Spanish (including technical writing). Demonstrate how to effectively drive recommendations and land priorities across customers, partners, senior executives and across organizational boundaries.

B. Support Engineer, Microsoft Technologies

Microsoft

Irving, TX

Full time

Are you looking to join an exciting industry and organization that is at the forefront of the next Tech industry transformation? The transformation that is occurring within the tech industry is being accelerated by the maturity and rapid adoption of cloud computing. This rapid adoption across organizations is changing the needs and expectations of customers in the partnership with their vendors. Industry after industry is becoming technology-driven as software rapidly eats the world. As it spreads, so do complexity and opportunity. The next-generation tech industry is where suppliers play an active, ongoing role in helping business customers achieve unparalleled value from their technology investments. This expectation will require Microsoft to re-assess how it thinks about services and how to support these customers through the customer life-cycle that is focused on customer outcomes.

The vision of the Customer Support Services (CSS) organization is about being relentless in the pursuit of truly exceptional customer experiences. We aspire to deliver to, "Deliver a customer experience that is perfect every time; an experience that is easy, insightful, and trusted." Perfect does not mean being perfect; rather it means that we will take risks when it is the right thing to do for our customers and our business. CSS will be unwavering in advocating for our customers, contribute deep insights to the customer lifecycle, and act as a trusted advisor improving product and service experiences across Microsoft. We are seeking to build out the team of next generation Support Engineers in this big tech transformation. This requires an engineer who is relentlessly customer-centric, a problem-solver, strong collaborator, and risk-taker that embraces that challenger mindset.

We're looking for someone who embodies customer obsession and empathy. Someone who is adept at getting to the root of the issue, regardless of where the code base resides. If you enjoy using technology creatively, overcoming complex technical challenges, and working as part of a team with some of the best people in the industry, then CSS is the place for you. Come join an organization that supports work-life balance, personal & professional development, and diversity. This organization is built around 6 Core Values that drive our every decision, and our every action.

You will be part of a team responsible for providing an outstanding technical support experience to our business customers. From problem identification to full resolution, you will own and manage the customer experience over the phone and Web. When needed, you will collaborate with others to engage subject matter experts, Engineering (Product Groups) or Management. Your day to day job will be about providing both technical expertise (either on your own or by involving your colleagues) and about being an excellent communicator and a service oriented professional. You will be given the opportunity to become a subject matter expert in one or more areas and receive guidance and mentorship from your colleagues.

Responsibilities

Core Responsibilities:

- Scope a customer's issue by collecting the relevant facts and investigate the problem by doing your own research and by involving other teams as needed.
- Consult and collaborate with your immediate peers or colleagues around the world and with management and engineering to resolve service issues.
- Act internally as a customer advocate.
- Empower customers to find information, self-solve when they decide to, and learn more about Microsoft products, services and support.
- Advise customers on how to gain additional value from their Microsoft products.
- Document your technical work and research to help your colleagues, improve the product, and improve the support experience.
- Maintain a proactive approach to customer happiness, identifying customer satisfaction concerns and managing customer expectations.

Qualifications

Required Qualifications:

- We are seeking candidates with at least 1 year of experience in technical /product /software support, systems development, application development, devops, network operations, IT admin, IT consulting, or any customer-facing work experience
- We are seeking candidates with at least one year of experience in any of the following technologies:
 - Windows System Administration/Virtualization
 - Windows scripting or PowerShell

- Familiarity with Active Directory, Security, OS Internals concepts
- Understanding of Virtualization concepts and virtual system administration
- Familiarity with system management tools such as SCOM
- Experience with Hyper-V configuration and administration
- Networking
 - Familiarity with networking concepts including VIPs, NAT, DNS
 - Familiarity with networking tools (ping, tracert, tracemon, wire shark, etc.)
 - Familiarity with routing and routing protocols such as BGP or OSPF.
 - Understanding of load balancing, geo-redundancy, CDN and VPN technologies preferred
 - Understanding of the OSI model and related concepts
 - Understanding of TCP/IP and other networking services: DNS, WINS, DHCP, Routing
- Linux OSS (Preferred but not required)
 - Familiarity with one, or more, shell environments (BASH, sh, tcsh, ksh, etc.)
 - Experience with Linux script-based development environments and tools (PERL, Python, Ruby, PhP, etc.)
 - Experience administering Linux (boot process, file systems, network device and protocol configuration)
 - LAMP (Linux, Apache, MySQL, PhP or Python)
- SCCM
- Windows Desktop, 0365, Exchange Online

- Skype for Business/ Sharepoint / Teams
- OCS/Lync/Skype for Business/Teams, Jabber, Exchange, Zoom, or Cisco WebEX
- Windows Server Operating System knowledge which includes understanding of NTFS/Share Permissions, File Sharing, Performance Monitoring, Event logging, Task Manager, Windows Firewall, User and Group Management
- Chef/Puppet, Docker/Container
- core OS services such as: SSH, telnet, FTP, NFS, DNS, DHCP, Samba, LDAP
- IIS and HTTP protocol
- AP, Json templates
- Storage technologies (cloud and/or on premises)
- RDP protocol
- Service Fabric or Azure Cloud Services
- REST API
- .Net development, IIS
- .NET Framework SDK
- Java API/SDK
- Software development experience with C++ or C#
- Debugging code (WINdbg, Visual Studio Debugger)
- Linux, Mac, Java, PHP, Node.js, Python or Ruby.

- Hadoop, NoSQL , ETL, streaming, Machine Learning or other Big Data/Analytics technology
- Programming & Debugging Experience in Java, Python, R, Scala, REST concepts, C/C++, HTML or JavaScript,
- Knowledge and experience with the Open Source ecosystem.
- Experience in RDMS such as Microsoft SQL Server and Microsoft BI technologies including SQL Server Analysis Services, Power BI, SQL Server Reporting Service.

We love to get to know candidates with strong technical background in any of the above listed technologies related to infrastructure, IaaS, PaaS, Database, Big Data, Application Development. Nevertheless, do not shy away. If you meet some of the technical requirements, and if you have growth mindset and are a strong believer that knowledge can be developed with effort and persistence, please apply.

Preferred Education And Technical Qualifications:

- B.S. degree in C.S. or E.E. is preferred but not required
- MCSE + I/ MCSD / MCDBA or any other Linux, AWS, GCP certifications is a plus
- Exposure to working with customers on Microsoft Cloud products or Competitive Cloud Solutions

Ability to meet Microsoft, customer and/or government security screening requirements are required for this role. These requirements include, but are not limited to the following specialized security screenings: Microsoft Cloud Background Check: This position will be required to pass the Microsoft Cloud background check upon hire/transfer and every two years thereafter.

National Accounts Manager

HD Supply

Dallas, TX

Full time

HD Supply (NASDAQ:HDS) (www.hdsupply.com) is one of the largest industrial distributors in North America. The company provides a broad range of products and value-add services to approximately 500,000 customers with leadership positions in maintenance, repair and operations and specialty construction sectors. Through approximately 260 locations across 36 states and six Canadian provinces, the company's approximately 11,000 associates provide localized, customer-driven services including jobsite delivery, will call or direct-ship options, diversified logistics and innovative solutions that contribute to its customers' success. With an active commitment to the communities in which we operate, HD Supply associates are part of a thriving organization that supports the virtues of wellness, diversity and inclusion - all of which are top priorities for the company. Equally as important is empowering our associates to grow professionally while providing competitive benefits and compensation. If you're ready to find a rewarding career and achieve your full potential with a growing industry leader, HD Supply is ready for you!

Job Summary:

Build relationships and develop plans to increase sales and profitability for targeted national accounts and make purchasing decisions. Drive sales by creating, executing and communicating business plans to grow sales for HD Supply. This position requires operation of a Company Vehicle or a Personal Vehicle and such operation is done consistently more than 20% of the

average work week. If selected for this position, HD Supply will run a Motor Vehicle Record (MVR) report. A requirement of this position is an acceptable MVR report.

Major Tasks, Responsibilities And Key Accountabilities:

- Develops and maintains business relationships. Strategically plans customer visits to cultivate relationships, perform presentations, offer innovative programs and communicate plans.
- Researches, develops and acquires account opportunities. Effectively communicates competitive strengths and develops strategy to acquire competitive business.
- Develops and executes profitable business plans for managing existing and newly acquired accounts and implements those plans effectively.
- Negotiates national contracts and rebate programs consistent with industry management goals.
- Teams with individuals within sales, and other key corporate personnel to communicate account plans, pricing, and offer assistance to drive sales. Responsible for linking to other HD Supply entities where appropriate.
- Participates in local and national trade associations and conferences.

Nature and Scope:

- Identifies key barriers/core problems and applies problem solving skills in order to deal creatively with complex situations. Troubleshoots and resolves complex problems. Makes decisions under conditions of uncertainty, sometimes with incomplete information, that produce effective end results.
- Independently performs assignments with instruction limited to the expected results. Determines and develops an approach to solutions. Receives technical guidance only on unusual or complex problems or issues.

- May oversee the completion of projects and assignments, including planning, assigning, monitoring and reviewing progress and accuracy of work, evaluating results, etc. Contributes to employees' professional development but does not have hiring or firing authority.

Work Environment:

- Located in a comfortable indoor area. Any unpleasant conditions would be infrequent and not objectionable.
- Most of the time is spent sitting in a comfortable position and there is frequent opportunity to move about. On rare occasions there may be a need to move or lift light articles.
- Typically requires overnight travel more than 50% of the time.

Education And Experience:

Typically requires BS/BA in a related discipline. Generally 5-8 years of experience in a related field OR MS/MA and generally 3-5 years of experience in a related field. Certification is required in some areas.

Preferred Qualifications:

- Easily Adaptable
- High communication skills
- Detail-oriented
- Customer Service

- Problem solving
- Strong writing skills
- Drive sales by creating, executing and communicating business plans to grow sales for HD Supply.
- Builds relationships and develops plans to increase sales and profitability for targeted national accounts and make purchasing decisions.
- Acceptable MVR report.
- Experience managing National Accounts
- Experience with core industries of Multi-Family, Hospitality, Government, or Healthcare.

1. This position requires operation of a Company Vehicle or a Personal Vehicle and such operation is done consistently more than 20% of the average work week.
2. Required to reside in the state of Texas, preferred in Dallas/Fort Worth.
3. Must have managed market king relationships.
4. B2B Experience
5. Bachelors Degree
6. Supply Chain environment preferred
7. Familiarity with Miller Heiman's Strategic Selling and Large Account Management Process concepts.

Help Desk / Tech Support - Active TS Required

General Dynamics Information Technology

Fort Worth, TX

Full time/Scheduled Weekly Hours: 40

Help Desk Technician III Position

Job Description:

Only applicants with an active Top Secret (TS) Clearance need apply

General Dynamics Information Technology (GDIT), a leading provider of systems engineering, integration, IT service operations and support solutions, is seeking talented professionals to deliver valuable services and solutions to our customers.

GDIT has a great team consisting of experienced and knowledgeable managers who lead and support our employee's career development objectives with on-the-job and certification training opportunities. Our employees consider GDIT to be a solid partner in their career, with excellent benefits and an abundance of opportunities for advancement. We offer experience with the latest tools and intensive training.

If you are looking for a new and exciting career to boost your technical skills and you enjoy helping others, GDIT is hiring Help Desk Associates for the Federal Bureau of Investigation's (FBI) Enterprise Operations Center (EOC) in Fort Worth, TX. We offer the chance to support the world's finest law enforcement organization and help the people that keep us safe. In this job you will support the agents, analysts, and professionals and technology they use to fight terrorism, espionage, cyber-attacks, and major criminal threats.

We are seeking candidates committed to high quality to provide courteous and accurate technical information and support in a timely, efficient and professional manner. This position performs activities associated with implementation, integration and support of computer systems in mission critical response operations environment.

Responsibilities Include:

- Provide quality customer service and IT support to users all over the world in a dynamic and fast paced environment
- Provide over-the-phone and online troubleshooting support (calls and self-service) for users with varying degrees of computer skills
- Triage and troubleshoot all manner of IT issues, including account/authentication issues, hardware and software issues, network and VPN issues, and issues relating to mobile devices.

- Provide detailed documentation of steps taken to resolve user's issues within the ticketing system; including initial diagnosis and all pertinent information
- Unlock accounts and reset passwords for users on multiple networks
- Install common software via endpoint management systems
- Resolve at least 70% of all interactions on first contact
- Provide remote desktop support using RDP and other methods
- Provide users with the status of their open ticket(s) and serve as intermediary between users and technical support groups in the IT Branch

Qualifications:

- Excellent oral and written communications skills with customers and peers; demonstrated success in handling customers challenges
- Demonstrated success in a team environment
- Prior experience in any customer service or customer-facing role is strongly desired
- Demonstrated ability to learn new techniques and procedures and adapt to change
- Prior experience with IT ticketing systems such as BMC Remedy or HP Service Manager
- 1+ years of experience supporting users in an IT Support role is desired
- Some college (Associate's or Bachelor's Degree)or equivalent experience; CompTIA, HDI, or ITIL Foundations certification

Special Position Requirements:

- United States citizenship
- Must have an active Top Secret clearance – this position will require the candidate pass a Counter-Intelligence polygraph after obtaining a position
- Ability to speak and communicate fluently in English language

As a trusted systems integrator for more than 50 years, General Dynamics Information Technology provides information technology (IT), systems engineering, professional services and simulation and training to customers in the defense, federal civilian government, health, homeland security, intelligence, state and local government and commercial sectors. With approximately 32,000 professionals worldwide, the company delivers IT enterprise solutions, manages large-scale, mission-critical IT programs and provides mission support services. GDIT is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, or veteran status, or any other protected class.

We are GDIT. The people supporting some of the most complex government, defense, and intelligence projects across the country. We deliver. Bringing the expertise needed to understand and advance critical missions. We transform. Shifting the ways clients invest in, integrate, and innovate technology solutions. We ensure today is safe and tomorrow is smarter. We are there. On the ground, beside our clients, in the lab, and everywhere in between. Offering the technology transformations, strategy, and mission services needed to get the job done. GDIT is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, or veteran status, or any other protected class.

Director, Payroll Systems

McKesson

Dallas, TX

Full time

McKesson Corporation is seeking a Director of Payroll Systems to support the Workday Payroll module for North America Payroll as well as provide best practices to Workday implementations in other countries.

The Position Has The Following Key Responsibilities:

Qualified candidates will have an excellent understanding of corporate payroll functions and experience delivering cutting edge solutions to large scale enterprise operations. Qualified candidates must also have experience in implementing and/or supporting the Workday Payroll Module. The Director, Payroll Systems will report into the Corporate Payroll organization.

- Successful post-production support of Workday throughout North America. This position has responsibility and oversight for the successful ongoing support of the Payroll function within the Workday system throughout North America.
- Managing a dedicated team for post-production Workday support. There will be a small team (2-4 people) dedicated to the ongoing support of the Payroll module in Workday. This position will have full managerial responsibility to ensure that the team reaches its objectives.
- Implement continuous improvements and enhancements. Monitor all new functionality from Workday, including robotics, improved employee experiences, and legislative updates. Oversee successful implementations of needed improvements. Participate in industry conferences and groups to evaluate new technologies and innovative programs that support overall payroll functions.
- Lead projects as deemed necessary. Projects can include bringing onto Workday new acquisitions, new benefit providers, updated union contract rules, etc.
- Collaborate with both internal technology stakeholders and 3rd party vendors. Work closely with internal technologies (Kronos, Salesforce, RPA) to ensure smooth integrations. Work with new and existing vendors that McKesson uses within benefits, compensation, workforce management, etc.

Minimum Requirements:

- Typically requires 12+ years' relevant experience with at least 4+ years in a leadership capacity
- Bachelor's Degree in Finance, Business, or relevant field

Critical Skills:

- 3+ years of Workday payroll systems experience required

- Must have experience leading large company implementation of payroll functions in Workday and/or supported post-production for a minimum of 2 years
- Must have experience automating processes (implementation and support using RPA/AI tools)
- 3-5 years of project management experience including resource planning, budgeting, managing to deadlines, and change management
- Experience working with supporting technologies that integrate with Workday payroll systems (Kronos, Salesforce, etc)
- Understanding and awareness of current legislative and compliance issues related to payroll
- Experience leading, developing, and mentoring teams

Additional Skills:

- Excellent collaboration and partnering skills
- Broad leadership capabilities
- Ability to successfully translate strategic objectives to operational actions
- Effectively manage and develop multiple special projects
- CPP license preferred
- Multi country experience preferred

Physical Requirements:

- General Office Demands
- Travel up to 20% may be required (some international)

Benefits & Company Statement:

McKesson believes superior performance – individual and team – that helps us drive innovations and solutions to promote better health should be recognized and rewarded. We provide a competitive compensation program to attract, retain and motivate a high-performance workforce, and it's flexible enough to meet the different needs of our diverse employee population.

We are in the business of better health and we touch the lives of patients in virtually every aspect of healthcare. We partner with payers, hospitals, physician offices, pharmacies, pharmaceutical companies and others across the spectrum of care to build healthier organizations that deliver better care to patients in every setting.

But we can't do it without you. Every single McKesson employee contributes to our mission—whatever your title, whatever your role, you act as a catalyst in a chain of events that helps millions of people all over the globe. Talented, compassionate people are the future of our company—and of healthcare. At McKesson, you'll collaborate on the products and solutions that help us carry out our mission to improve lives and advance healthcare. Working here is your opportunity to shape an industry that's vital to us all.

Join us at McKesson!
