

Abundant Creation

It's so much to behold, it's abundant and free
It's the warm sun on your face, how blessed are we?
It's flora and fauna, it's a joyful surprise
It's the gifts God gave to Earth, it's a feast for the eyes

-
- Chorus
-
- it's the changing of the seasons,
It's the old into the new
It's the snowy winter ground,
where the tender seed breaks through
It's the calm before the storm
It's the first breath when we're born
Let us declare and recognize their worth
It's tending God's creation that makes Heaven on Earth
-

- It's the circle of life, in perpetual motion
- Gratefully we accept the gifts from God's hand
- Humbly, we abide in nature's commotion
- In gratitude we receive the fruits from the land

-
-
- Chorus
-
- it's the changing of the seasons, It's the old into the new
It's the snowy winter ground,
where the tender seed breaks through
It's the calm before the storm
It's the first breath when we're born
Let us declare and recognize their worth
It's tending God's creation that makes Heaven on Earth
- Heaven on Earth.....Heaven on Earth
